

Discount Compliance and Recovery Services

Identify and collect lost revenue with Discount Compliance and Recovery Services

The nThrive approach provides a comprehensive solution for identifying improper managed care network discounts and recapturing lost revenues. We offer a managed care contract review to identify loopholes and pitfalls that result in silent PPO (SPPO) abuse.

After conducting an analysis of zero balance accounts, our team of managed care experts identifies suspect claims targeted for forensic audit and recovery. nThrive can assist your health systems with “model contract” language recommendations to reduce future SPPO practices. The end result: your health system is empowered to monitor, identify and prevent SPPO activity.

Discount Compliance and Recovery Services include:

- Auditing zero balance accounts for multiple years
- Determining when payors are in violation of contractual terms
- Recovering inappropriate discounts
- Recommending language to close contractual loopholes

Tackle complex contracts

nThrive has developed proprietary “Payment Protection” services to monitor the health care payment stream. Designed to identify and prevent aggressive discount practices of payors and managed care organizations, our solution offers the following benefits:

- Significant increase in PPO revenue
- Prompt and accurate reimbursement from payors
- Customized on-line matrix of managed care contracts
- Robust Web-based reporting to track, trend and monitor silent PPO behavior
- No changes or costly upgrades to existing information architecture
- Performance-based pricing to ensure interests are aligned; inappropriate discounts recovered at no risk
