Information Management in Transition

FROM	TO
Department	Multi-focus and decentralized services
Facility or unit (e.g. hospital)	Enterprise and beyond
Post discharge	From capture through use
Record as focus	Data and information as focus
Cost center	Improving information assets
Supervising clerical functions	Automate clerical; skilled knowledge work

Industry Trends

Consolidation

Patient
Identity
Integrity

No Walls

HIM without
walls, embedded
in business units

Redefine

Need for HIM to
redefine itself

Patient

Patient Liability /
Consumerism

Transform

Transformation
not incremental
change needed

Next Five Years

Shift to a focus on use of the information that is the product of the technology

Value of health information to a growing range of stakeholders, with patients front and center, that will determine how HIM must continue to evolve.

Changes in value-based health care financing and payment will be a key driver for evolving HIM
