

CDM Manager®

Keep up-to-date with constantly changing coding and compliance rules to reduce denied claims and delayed or incorrect reimbursement

Key benefits

The Web-based CDM Manager helps hospitals and health system staff easily manage and maintain an accurate, comprehensive and compliant charge description master (CDM). With CDM Manager, health care organization staff can:

- Identify potential coding and compliance issues
- Uncover new revenue opportunities
- Present comprehensive reporting that improves transparency
- Enhance communication
- Track line item history for audit purposes

Features

Comprehensive chargemaster analysis

Through its broad feature set, CDM Manager enables users to identify and correct coding issues, create new line items, perform comparative pricing and maintain comprehensive line item history. A comprehensive index of common charge items via the nThrive Best Practice Catalog is available as an option to assist in updating the chargemaster and monitoring both static and dynamic line items. With CDM Manager, health care organization staff can:

- Recognize coding and compliance issues within the chargemaster
- Facilitate the correction of coding problems at the chargemaster level
- Identify reimbursable devices, drugs and blood products not contained within the chargemaster
- Discover possible add-on and reportable items

CDM Manager helps you easily manage and maintain an **accurate, comprehensive and compliant chargemaster**

Research and audit

CDM Manager gives health care providers the insight needed to make important chargemaster decisions, including the ability to:

- Track changes made to chargemaster line items automatically
- Search a comprehensive line item history detail by date or date range
- Generate customized reports that quickly identify errors in the CDM, eliminating recurring billing errors and decreasing denials
- Monitor line items to determine if they are priced below APC or fee schedule amounts

Inter-departmental interaction

With CDM Manager, departments can become involved in the daily maintenance of the chargemaster. Using CDM Manager, providers can:

- Receive Informant®, nThrive e-mail communication that includes CDM line item numbers affected by a change in the outpatient prospective payment system
- Notify users automatically of regulatory changes that affect their departments following publication
- Manage and review chargemaster changes quickly and easily through a user-defined request workflow process utilizing an organization's internal e-mail system
