Bernard Gay to Serve as Chief Information Officer for nThrive

nThrive strengthens leadership team with appointment of Chief Information Officer

Alpharetta, Georgia, September 11, 2017 – nThrive announces the appointment of Bernard Gay as chief information officer leading nThrive's Technology Services organization. Bernard will lead the Information Technology (IT) organization by developing a long-term cloud strategy, managing the nThrive data centers, and optimizing the IT infrastructure to serve as an industry competitive differentiator. He will also direct the security approach, reinforcing the security of information systems to exceed HIPAA and other regulatory requirements. Additionally, management of nThrive facilities, and the procurement and travel functions and related applications will be directed by Bernard and his team.

With over 16 years of experience in managing IT organizations, Bernard has a proven track record of organizational transformation, systems and operational management, and client service. He joins nThrive from Delaware North Corporation, where he led a team of over 165 IT professionals and directed the business and technical vision for the company.

CEO Joel Hackney noted this about the new appointment, "nThrive is fortunate to have Bernard join our organization, and we are confident he will add tremendous value to the executive leadership team, colleagues and clients. We eagerly anticipate the positive impact he will have on the company's culture, and how he will help to further grow long-term success at nThrive."

About nThrive

From Patient-to-PaymentSM, nThrive provides all the technology, advisory expertise, services, analytics and education programs health care organizations need to thrive in the communities they serve. Formerly known as MedAssets, Precyse and Equation, nThrive is built on a legacy of excellence. Most recently, nThrive acquired two leaders in their fields, Adreima – a provider of patient-centered, clinically integrated revenue cycle services that help patients find coverage and meet their financial obligations – and e4e Health care Services – a business process outsourcing company. The five organizations together combine top talent and capabilities in the health care industry into a single enterprise. www.nthrive.com
