

From Patient-to-Payment<sup>SM</sup>, nThrive provides all the technology, advisory expertise, services, analytics and education programs health care organizations need to thrive in the communities they serve. Formerly known as MedAssets, Precyse and Equation, nThrive is built on a legacy of excellence. Most recently, nThrive acquired two leaders in their fields, Adreima – a provider of patient-centered, clinically integrated revenue cycle services that help patients find coverage and meet their financial obligations – and e4e Healthcare Services – a business process outsourcing company. The five organizations together combine top talent and capabilities in the health care industry into a single enterprise.

**nThrive** empowers health care for  
every one in every community<sup>SM</sup>

**nThrive** / nthrī-v /

The power to **thrive**.

To **grow** and develop successfully.

To **flourish** and **succeed** to the n<sup>th</sup> degree.

The fast and efficient implementation of the full business outsourcing engagement enabled our team to accelerate cash flow while improving productivity. In conjunction with the additional tools and technologies you put in place for us, we are now in a position to sustainably optimize our financial improvement."

ROBIN STOEN, DIRECTOR OF REVENUE CYCLE, CENTEGRA HEALTH SYSTEM

At nThrive, we believe there is a need for a new kind of revenue cycle management company.

A company with a breadth of competencies, from **Patient-to-Payment**<sup>SM</sup> to seamlessly coordinate financial and clinical care to revitalize your business operations. We've built our business around knowledge and expertise across the entire revenue cycle,

and because we are independent, we are not influenced by payor or provider owners. What you'll get are unbiased solutions focused on what is best for your organization, ensuring the best possible outcomes that enable you to truly thrive.

All that we are and everything that we do begins with our vision, mission, values and approach to working with our clients – we affectionately call this our **VMVA**.

We think of it as our organizational DNA. It's what fuels us to be the kind of partner you can be proud to work with. **It is our promise to you that we will thrive together.**

---

## // VISION

We empower health care for every one in every community

---

## // MISSION

We transform financial and operational performance, enabling health care organizations to thrive

---

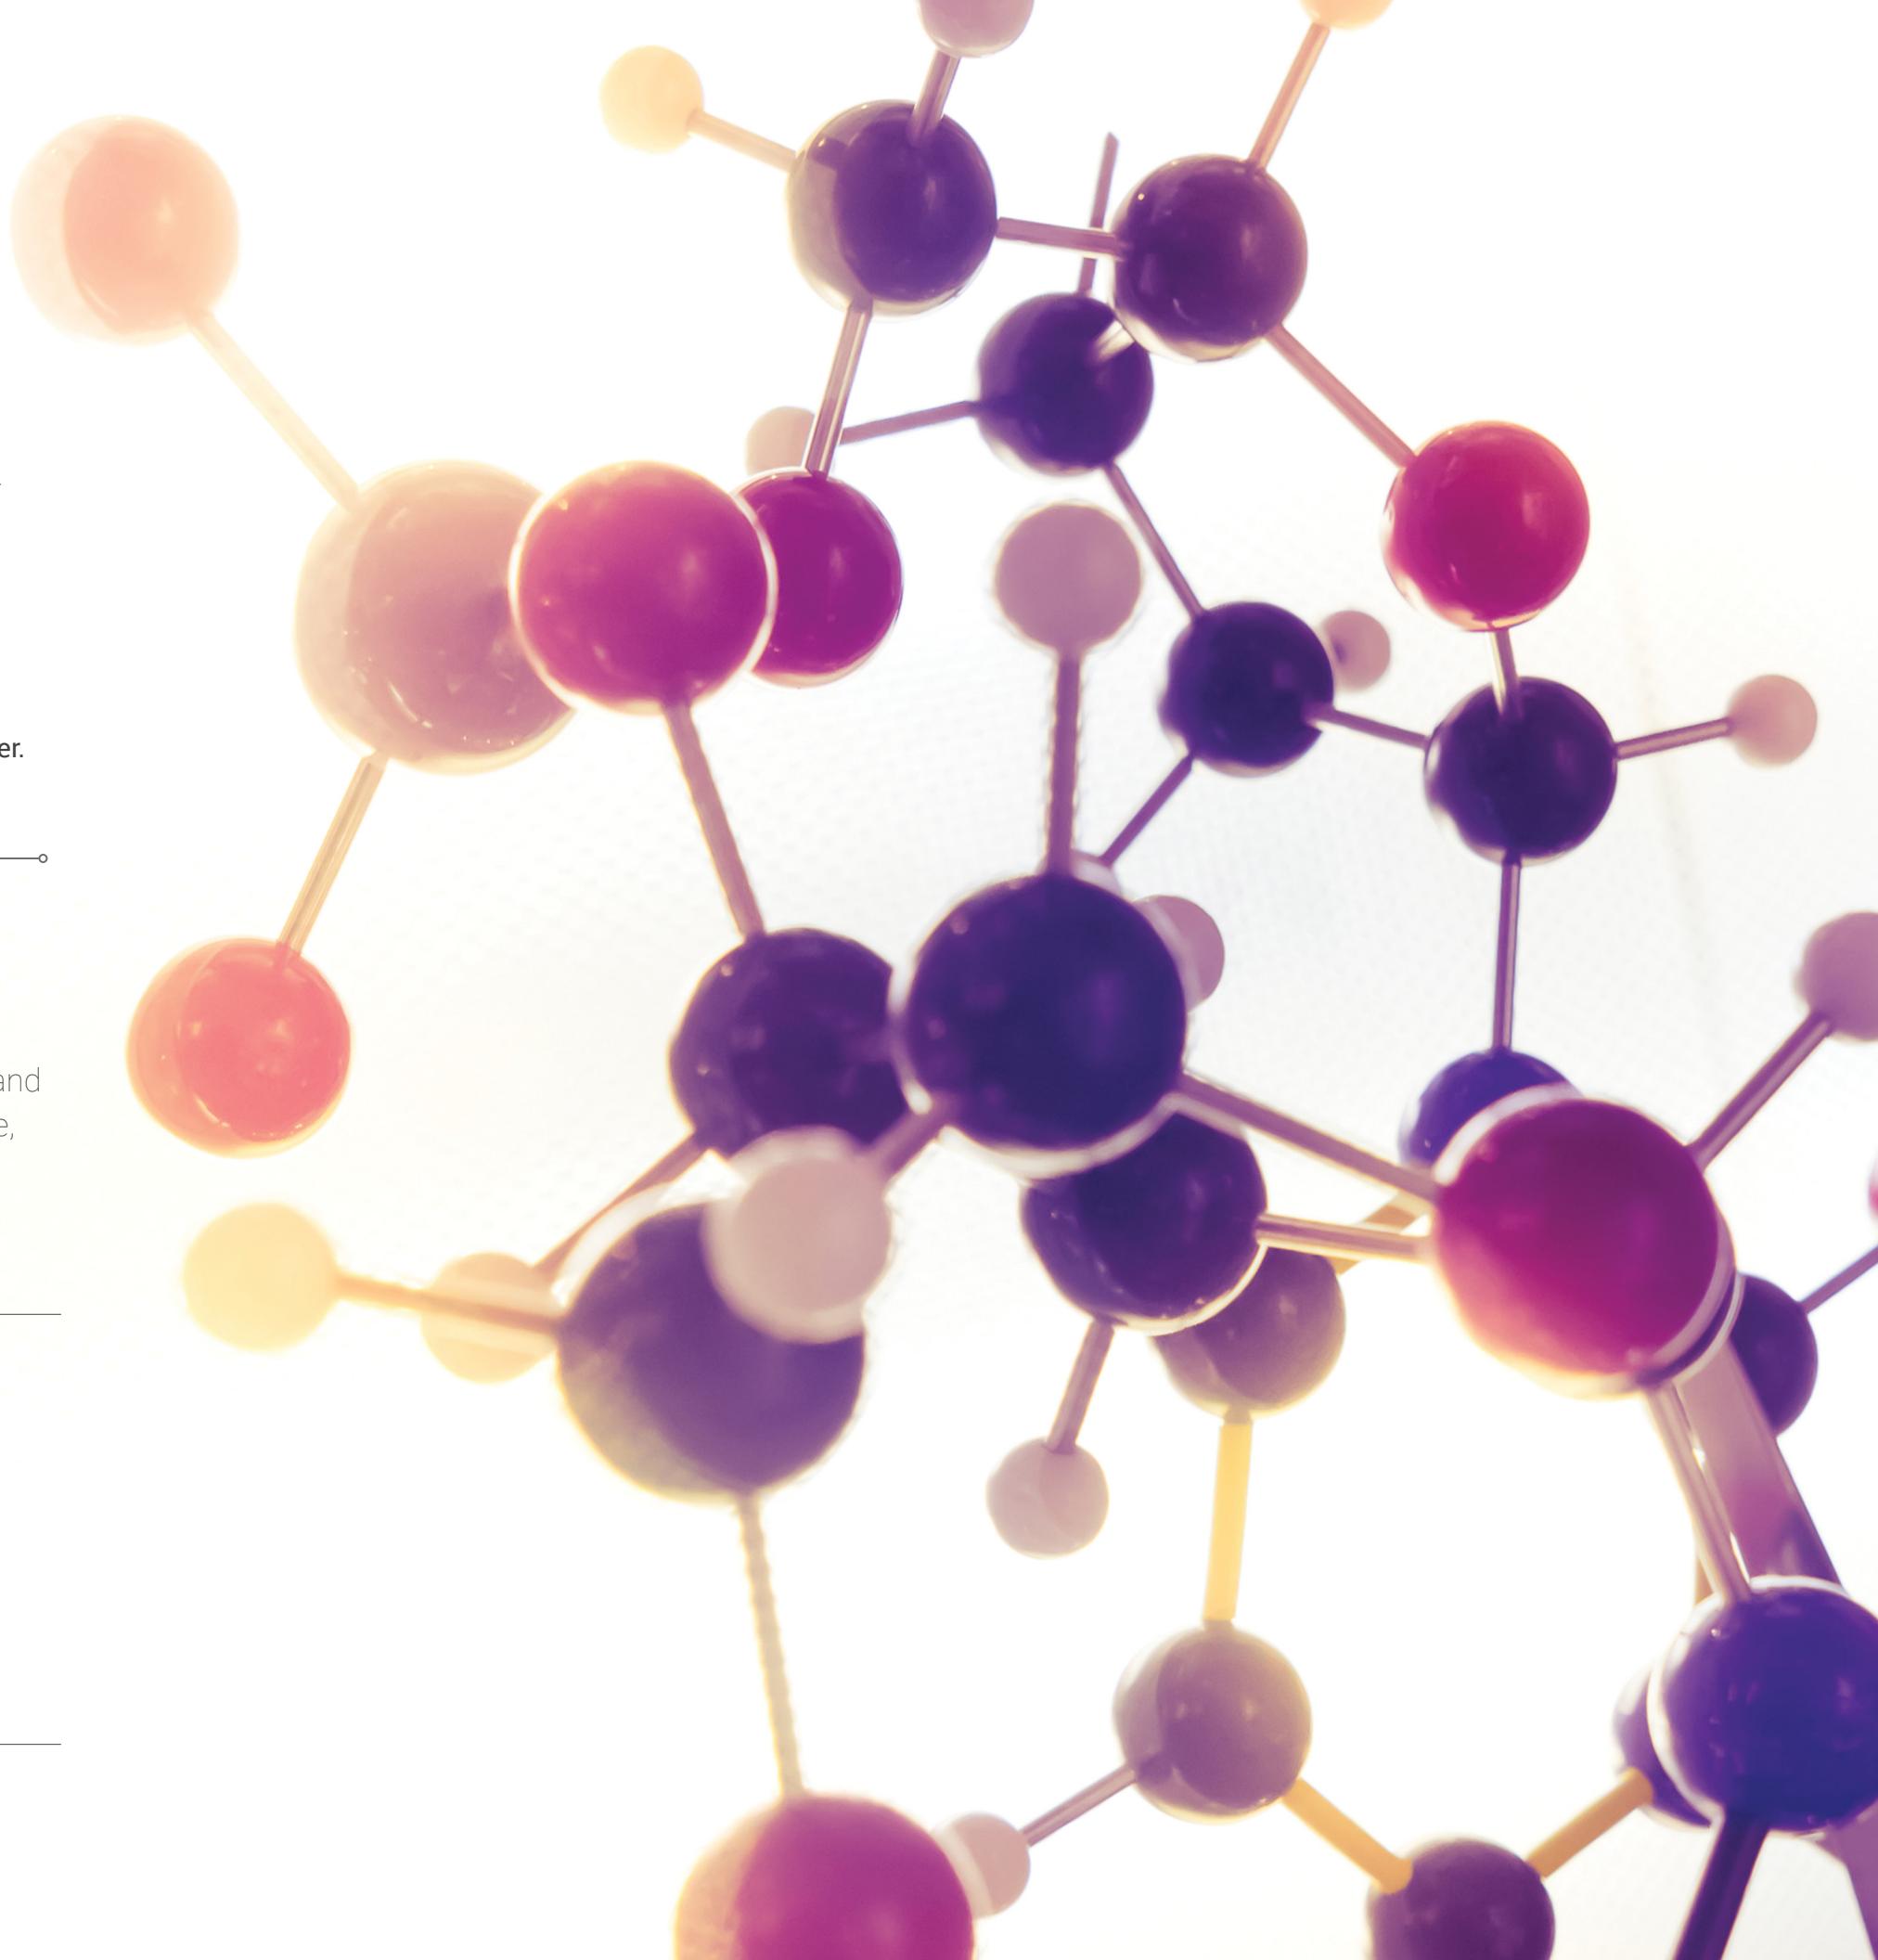

## // VALUES

We care about health care – today and tomorrow, and we live by these values: Courage, Authenticity, Respect, Excellence and Service

---

## // APPROACH

We are Focused, United, Nimble and Accountable

Through our mission to transform financial and operational performance,

we're transforming revenue cycle management into a complete **Patient-to-Payment** solution.

*Our Complete  
Patient-to-Payment Offering*

We believe in leveraging technology to unify people and processes across the Patient-to-Payment spectrum. Much like your medical staff treats the whole patient, at nThrive we believe that to be successful, we must understand and integrate clinical and revenue cycle functions across the enterprise. The result is improved financial resources to invest in your community's well-being.

There is power in knowledge and experience. From patient admission to recognized revenue, our unprecedented team of revenue cycle management advisory experts is driven by the ways in which each component of the revenue cycle works together and impacts the next. We'll be there every step of the way to guide you on your journey to greater operational and financial success.

Our power to perform is what sets our broad offering of outsourced services apart in the industry. We'll help you become more responsive to patients and thrive in your community through greater efficiencies and increased revenue, helping to ensure your financial success.

There is power in data. However, harnessing and leveraging it to meet evolving payment models and other industry trends requires a well-tuned analytics engine. Our unique analytics approach can help provide the actionable insight and clarity you need to pinpoint areas of improvement and meet your most pressing business challenges or growth goals.

To sustain improvement requires continuous learning. Our education and training programs can help your team build the skills and endurance needed to compete in an evolving value-based care environment – today and tomorrow.

For the first time ever, I can connect all of the financial dots in our health system across our orthopedic service line with your comprehensive analytic methodology."

PATRICK MURRAY, SERVICE LINE DIRECTOR, ORTHOPEDICS, REID HOSPITAL

Your wealth of learning tools supported different learning styles on our team. Online courses, webinars, games and virtual simulators allowed our team to pick how they wanted to learn, and because of that, they were really motivated to learn."

TERESA MICHAEL, BA, RHIT, DIRECTOR OF HIM, SARASOTA MEMORIAL HOSPITAL
