Quick reference

## ICD-10 Decision tree

This decision tree is only intended to assist with identifying the appropriate COVID-19 diagnosis code. Standard coding guidelines apply and should be followed related to sequencing, coding signs/symptoms and other known conditions.

Symptomatic Patient

START

Is the patient symptomatic? (Exposure presumed during epidemic)

No → Asymptomatic

Yes → Is the patient COVID positive?

- Yes → **U07.01**
- No → **Z20.828**

Asymptomatic Patient

Asymptomatic (Exposure presumed during epidemic)

→ Is test being conducted for screening purposes (i.e. per protocol)?

Yes → Is the patient COVID positive?
- No → Code **Z11.59**
- Yes → **U07.01**

No → Is the patient COVID positive?
- No → Code **Z03.818**
- Yes → **U07.01**
