SLA **Service Line Analyzer**

n)thrive™

Organize Your Income Statement By Service Line

Service Line Analyzer is a cloud-based product that drills into consolidated inpatient, outpatient and physician practice data to achieve improvements in quality and productivity within your service lines.

**Integrate** hospital inpatient & outpatient data with physician data

Assign all volume to strategic hospital service lines

Measure revenue, costs and margin by service line across inpatient and outpatient and employed physician services

Examine service line profitability by physician, department, patient demographics, DRG, procedure code, etc.

Modify base service line definitions to compare differences and outcomes

Implement in 60 days
