nThrive Announces Expansion of Relationship with Centegra Health System

Alpharetta, Georgia, September 26, 2017 – nThrive™, an independent Patient-to-Payment℠ solutions company, announces the expansion of its relationship with Centegra Health System to further support revenue cycle management for the organization. Centegra Health is outsourcing 230 employees; all will be offered positions with nThrive, and will continue to work in their current positions.

"We embrace the opportunity to collaborate with Centegra to improve the patient experience, and are sincerely excited to welcome Centegra colleagues to the nThrive team," said nThrive CEO, Joel Hackney. "

The goal of the new partnership is to improve sustainable margin, preserve service volume, and increase patient and physician satisfaction to transform the provider's acute and ambulatory revenue cycle operations. nThrive will continue to support the provider's business office and health information management department. Additionally, nThrive will expand its role to include management of patient access and additional health information management responsibilities for Centegra Hospitals and Centegra Physician Care (Ambulatory) revenue cycles. The new colleagues will be provided access to resources, technology, education and processes that improve the patient experience. nThrive will collaborate with Centegra to increase revenue capture, reduce operating expenses and accelerate cash flow.

"As we considered ways we could improve our financial performance and patient experience, we turned to longtime partner, nThrive, for a solution," noted Centegra CEO Michael S. Eesley. "We look forward to the ways nThrive will help us enhance our billing and business processes."

About nThrive

About nThrive From Patient-to-Payment℠, nThrive provides all the technology, advisory expertise, services, analytics and education programs health care organizations need to thrive in the communities they serve. Formerly known as MedAssets, Precyse and Equation, nThrive is built on a legacy of excellence. Most recently, nThrive acquired two leaders in their fields, Adreima – a provider of patient-centered, clinically integrated revenue cycle services that help patients find coverage and meet their financial obligations – and e4e Health care Services – a business process outsourcing company. The five organizations together combine top talent and capabilities in the health care industry into a single enterprise. www.nthrive.com
